

BIOGRAPHY

David Kincaid

International Trade Specialist
U.S. Department of Commerce

David Kincaid is an International Trade Specialist for the *Office of Energy and Environmental Industries* where he is responsible for a portfolio that includes Industrial Energy Efficiency and Nuclear Energy. In this capacity, Mr. Kincaid works to inform industry of policies, programs, and resources that may impact its activities, promote international trade relations, and facilitate the competitiveness of U.S. companies in international markets.

Mr. Kincaid is a Presidential Management Fellow at the Department of Commerce. During his fellowship, Mr. Kincaid has worked on interdepartmental projects that promote foreign direct investment into the United States, improve the application and licensing process of the Foreign Trade Zones program, develop a broader range of public and private partnerships, advocate on behalf of U.S. firms in foreign tenders, and create an evaluation mechanism for potential civil nuclear energy export markets.

Previously, Mr. Kincaid worked as a consultant for Public and Private Solutions Group, where he worked with clients to develop effective programmatic and management strategies. He also spent several years as a corporate trainer for one of North America's largest printing companies.

Mr. Kincaid holds a Master's degree in International Affairs and Economics from the George Washington University's Elliott School of International Affairs in Washington, DC, and a Bachelor's degree in Anthropology from George Mason University.

Mr. Kincaid speaks fluent German and beginning Russian. In his spare time, he enjoys travel, photography, triathlons, camping and mountaineering.
